Quake Wars 1.5 has no Power Admin related changes (i hope), so i can relase this little update as Re lase Candidate . It is not much tested, please report bugs. If there is no, this version is 0.9.1 that comes in two weeks.

- fixed Punkbuster actions on player list
- fixed cvar check bug from 0.9
- player list with online stats
- player list context menu
- new settings for gcc
