Last Updated Sunday, 08 June 2008

Hopefully this version fixes the bugs from RC1. After the online profiles changes form player name to a unique number, i adapted Power Admin to use it again. If you have problems with online stats you can deactivate it the options.

- Punkbuster screen shots fixed
- optional inactive mode
- player list adapted to online stats changes

Download Power Admin 0.9.1

Update: If you download at 07 June 2008, please get it again.
